

WORK. CULTURE. HAMBURG.

Welcome to the Hamburg Showroom

Overlooking the river Elbe, we present our Hamburg showroom to you which offers answers to the many design requirements which new work methods place on today's offices. The traditional office workstation is progressively becoming a place that is defined by communication and creativity. Ideas and concepts are team work. Solutions are born from collaboration. Whether a temporary workstation, a co-working solution or an open-space retreat: explore together with our colleagues which room concept best nurtures your working culture.

The showroom serves as a meeting point for connecting with partners, clients and architects, to exchange knowledge, learn about working cultures and develop ideas together.

One place. One brand. One experience.
