

Assembly

COMPETENT. CUSTOMER-CENTRIC. RELIABLE.

ASSEMBLY ASSISTANCE IS FOR THE EXPERTS

Our assignment does not end with the delivery of our products. We provide installation services to a very high standard. For König + Neurath these services are just as much a part of our core competences as the manufacture of the hardware. This is something we value highly.

Highly qualified and experienced fitters guarantee a fast yet meticulous installation. A network of installation teams used to working together ensures maximum flexibility for our customers as well as fast response times. A service vehicle carrying a professional selection of parts is on standby when needed. Regular training of our dealers and in-house staff means that professional expertise is kept constantly up to date.
