INNOVATION DAYS ARCHITECTSEXPO

Discover sustainable office concepts at the ArchitectsEXPO from 27 to 29 October

Normally, the industry feverishly awaits the big leading trade fair for modern working environments for months. Due to the current situation, it quickly became clear that ORGATEC would not be held this year. But the editorial offices of Konradin Architektur are organising a digital alternative for architects, interior designers, planners and other interested parties: ArchitectsEXPO. The Innovation Days with the main theme OFFICE + ACOUSTICS from 27 to 29 October 2020 will present new products and sustainable office concepts.

ArchitectsEXPO

OFFICE + AKUSTIK

Oktober 2020

Discover at our virtual fair stand how we are rethinking working environments and office structures. This is what we present to you: The WORK.CULTURE.MAP - our analysis tool, with which we get to know the working culture of companies and plan the appropriate room concepts to match. And the digital tool K+N SMART.OFFICE, which networks space, furniture and people - and helps to optimise office concepts.

Not to be missed: Lecture "Form follows culture"

On **29 October from 15.30 - 16.30**, **Georg Frech**, Head of the K+N Academy, will give a lecture on the topic of "Form follows culture" and show you how an analysis tool can optimise work in a company! In an exciting lecture, learn more about how you can discover the corporate working culture of your customers and what direct influence the working environment has on motivation, the quality of work and success.

You are cordially invited to discuss the working world of tomorrow with us. We look forward to meeting you!

Look forward to an [extensive programme](#) of lectures and [register here](#) for the virtual ArchitectsEXPO trade fair.
